University Name 1	.....English          .....Maths .....Science          .....Pre-school .....Economic          .....Primary/Elementary .....Social Science          .....Physical Education
University Name 2	.....English          .....Maths .....Science          .....Pre-school .....Economic          .....Primary/Elementary .....Social Science          .....Physical Education
University Name 3	.....English          .....Maths .....Science          .....Pre-school .....Economic          .....Primary/Elementary .....Social Science          .....Physical Education
Number of total <b>sending</b> students	Number of total <b>receiving</b> students

For university who prefers SEAMEO Secretariat to find partner	
Please indicate number of sending students in each major in the right column.	.....English                  .....Maths .....Science                    .....Pre-school .....Economic                  .....Primary/Elementary .....Social Science            .....Physical Education
Number of total <b>sending</b> students	Number of total <b>receiving</b> students
Other suggestions:	

*\*The proposed number of sending and receiving students shall not be mapped all. It depends on the demand and supply in each major study area.*

*\*\*In case any universities prefer finding its own partner, it shall be 2-side agreement meaning that they have to agree on sending and receiving students with each other. However, it's not necessary to send and receive student with the same amount.*
